## Modeli sa staklom

Odlikuje ih kombinacija više različitih materijala, kao što su aluminijum, inoks i staklo koji zajedno stvaraju izrazite linije i daju ulaznim vratima poseban pečat.

Stroga kontrola kroz ceo tehnološki proces izrade i završna kontrola ekskluzivnih modela sa staklima pružaju, sa minimalnim održavanjem, jako dug period upotrebe. Svakom modelu iz ove grupe slobodno dodajte svoju individualnu notu oblikovanja i ostvarite u potpunosti svoj unikatan izgled ekskluzivnih ulaznih vrata.
